What I'm Looking For

01

Obsessed with me - You would think this is a given, but most people can't problem solve. I need my future partner to be protective & loyal. The thumb thing? Absolutely required.

02

Funny as Hell - the best way to a girl's heart is making her laugh. Anyone who told you different is a liar. Well...laughing and snacks.

03

You're Kind - the world f***ing sucks right now. Being an asshole is just gonna make things worse. How you treat the server says a lot about you. Also...I have **Oakland energy with Boston attitude** so I wouldn't try anything.

04

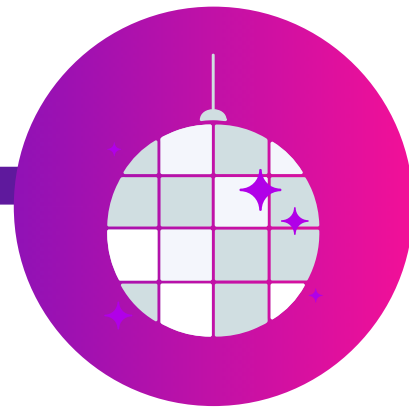

You have goals - look I can only help your personal development so much. If you're struggling, talk to a professional (they can help you create plans)! Just have intentions to make your life better. That's all I'm asking.

Me as a Girlfriend

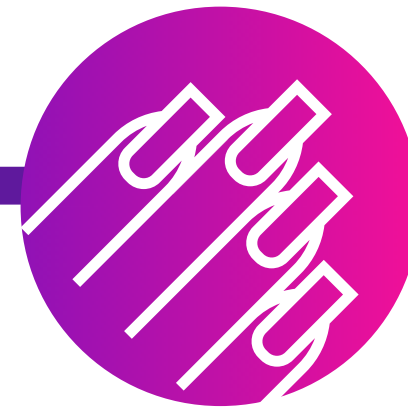

Smart

I have 2 degrees in Communication, 4 professional certificates, and I problem solve all day (aka process improvement). i'll brainstorm ways to help you reach your goals and become a better person.

Entertaining

My sense of humor is Top Gear UK mixed with sarcasm.
I like that silly ass shit - swinging on the playground, caffeinated adventures, and finding the ugliest clothes in the store.

Low Maintenance

I don't need my hair and nails paid for. But teach me your hobbies, play video games with me, and pay for the snacks / sweet treats.

Loyal

Playing games is exhausting. if I like you, I'll tell you & make it obvious. I'm not gonna do anything to blow up our lives. I'm looking for a best friend not a summer fling.
